

Brompton and Sawdon CP Whole School Art and Design Curriculum

Rationale

- It is our duty at Brompton & Sawdon CP, as a mainstream school, to provide a curriculum that is **ambitious** and **challenging** for **all** learners (where practical).
- This curriculum must fulfil the requirements set out in the **National Curriculum**. However, at Brompton, we go **beyond** these expectations, delivering a **deep**, as well as a **broad and balanced**, curriculum, which also reflect the needs, **rural context** and interests of our pupils.
- Whilst it is important that students have the opportunity to experience this depth of learning and experience their year group's curriculum and expectations, this should not be at the expense of **mastery** and **long-term retention**.
- When a student has not mastered a year group's curriculum, it is important that leaders and teachers **adapt** their curriculum, resources and practice. This may require teachers to 'secure' previous year group's expectations.
- At Brompton & Sawdon CP we firmly believe that **mixed-aged classes** are a benefit and not a necessity or hindrance; they allow students to progress at their own rate, whether that is allowing students to build on their strengths and looking at the next years' curricula or allowing students the time and support to secure understanding of previous year groups' curricula.
- We recognise, at Brompton, that students' **starting points** and previous educational experiences vary significantly. Our curriculum allows all students, especially the **disadvantaged**, to achieve their potential.

The following whole-school Art and Design curriculum reflects the above rationale. It also sets out how Brompton & Sawdon CP plan for and deliver **(and go beyond)** the National Curriculum. This is a 'working document'; teachers and leaders adapt the following based on the 'impact' on students.

This plan outlines what is taught (Intent), as well as when, where, why, how it is taught (Implementation). It breaks down the school's Art and Design curriculum into each dimension of the subject and then by year group. This allows teachers to clearly see the progression and sequence that skills need to be taught, so they can adapt their practice (if required).

Brompton and Sawdon CP Whole School Art and Design Curriculum

KS1 Art and Design

<p style="text-align: center;">Intent - What is taught? (Objectives) Beyond?</p>	<p style="text-align: center;">Implementation – When, How, Where and Why?</p>
<p><u>Year 1 and 2 Students will:</u></p> <ul style="list-style-type: none"> • use a range of materials creatively to design and make products • use drawing, painting and sculpture to develop and share their ideas, experiences and imagination • develop a wide range of art and design techniques in using colour, pattern, texture, line, shape, form and space • learn about the work of a range of artists, craft makers and designers, describing the differences and similarities between different practices and disciplines, and making links to their own work. 	<p>All children Y1-6 are given access to an extra curricula Art Club where art skills are specifically taught. The children learn about the work of artists e.g. Kandinsky and Andy Warhol. They also explore historic art e.g. Chinese Opera Masks.</p> <p><u>Class 1 - Year 1</u></p> <p>All children begin EYFS with their own sketchbook for exploring media, patterns, line, shape, form and colour.</p> <p>Children use a range of materials within topic activities e.g. the children created representations of vegetables during harvest using oil pastels. The children explore how to blend and develop their art work.</p> <p>Children explore artists through topic. E.g. During Space, children looked at Starry Night by Van Gogh. They discuss names that this art 'could be called', before making their own representation. We look at the links this work has to our own village .</p> <p>Children have free access to the creative area in Class 1 which has development activities for promoting skills in line drawing, shape and pattern. E.g. During a safari topic, repeating patterns</p>

Brompton and Sawdon CP Whole School Art and Design Curriculum

and designs are modelled for the children to recreate and develop using their own ideas.

Children participate in drawing and painting around the village whilst engaging in Forest Schools. They use their sketch pads to create line drawings and sketches of the wildflowers.

Children explore shape and space through other topics including maths - practising how to create triangles, squares and hexagons accurately.

Within topic, children experience planning and designing their own work - using junk modelling to create STEM representations of the human body, as well as bridges. They also have the opportunity to experience sculpture using modelling materials, for example using clay and clay tools to create small fish as part of the 'Only one you' story.

Class 2 - Year 2

Children continue to use their sketch books to develop artwork and their mastery of drawing and painting.

Children use a range of materials within topic activities, for instance during the 'Anglo Saxon' topic, children created clay shields and pots, used various grading of pencil to develop

Brompton and Sawdon CP Whole School Art and Design Curriculum

	<p>shaded drawings and colouring pencils and paints to design their own shields.</p> <p>Children develop their understanding of colour, pattern, texture, line, shape, form and space through self-portraits and the copying of existing images by completing a quadrant at a time to produce the finished image. Also completing splatter painting, creating their own splatter volcano as part of the topic.</p> <p>Children also improve their mastery alongside studies of famous artists and their style of painting, such as Guiseppe Arcrimboldo and Salvador Dali. Then they use this knowledge to design images based on the style of the artist (composite, surreal), e.g. making a composite volcano using various coloured materials as part of volcano topic.</p> <p>Children also use art as cross-curricular activities such as using paints, crayons, pastels, oils or chinks to evidence fractions and shapes or as part of Forest School activities.</p>
<p><u>IMPACT:</u></p> <ul style="list-style-type: none">•	<p><u>FUTURE FOCI (to inform action plan or SIP):</u></p>

KS2 Art and Design

<p style="text-align: center;">Intent - What is taught? (Objectives) Beyond?</p>	<p style="text-align: center;">Implementation – When, How, Where and Why?</p>
<p><u>Year 3, 4, 5 and 6 Students will:</u></p> <ul style="list-style-type: none"> • create sketch books to record their observations and use them to review and revisit ideas • improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials • learn about great artists, architects and designers in history. 	<p><u>Class 2 - Year 3</u></p> <p>Children continue to use their sketch books to develop artwork and their mastery of drawing and painting.</p> <p>Children use a range of materials within topic activities, for instance during the ‘Anglo Saxon’ topic, children create clay shields and pots, use various grading of pencil to develop shade drawings and use colouring pencils and paints to design their own shields.</p> <p>Children develop their understanding of colour, pattern, texture, line, shape, form and space through designing images from a description in a book, e.g. designing and producing an image of the BFG and other characters from information in the novel. This includes proportion, colour and use of varying materials. Children also develop their learning with understanding and producing the 3 types of tessellation, linking it to their shape work in Maths.</p> <p>Children develop their mastery by studying a greater range of famous artists and their style of painting, such as Paul Cezanne, Henri Matisse and Pablo Picasso. Then they use this knowledge</p>

Brompton and Sawdon CP Whole School Art and Design Curriculum

to design images based on the style of the artist (impressionism, cubism), e.g. looking at still life and following the structure of the relevant artists.

Children develop their artistic skills when producing recreations of Tudor building as part of their history and design and technology work (using as many materials from the period that are available). Children also use their artistic learning to help create historic and present-day maps of the village, looking at the architecture and features that make up our village.

Children design and produce several flags as part of the 'Around the World' topic, using a variety of materials and processes to make a unique final product.

Children also use art as cross-curricular activities such as using paints, crayons, pastels, oils or chinks to evidence fractions and shapes or as part of Forest School activities.

Class 3 - Year 4, 5 & 6

Students continue to use their sketch books to develop art work and their mastery of drawing and painting. They also use them to create diagrams for Design and Technology projects (e.g. exploded diagrams of a 'Dunkirk' boat)

Brompton and Sawdon CP Whole School Art and Design Curriculum

Children improve their mastery of art and design by topic-based projects that sometimes require the use of different mediums e.g. Brompton & Beyond topic and 'Arts Award Explore' project – children recreated famous and notable buildings from the village by planning through detailed drawings; sketching building features and combining paint colours and techniques to represent the exterior of the buildings.

Also, as part of their 'Arts Award Explore', children work with professional artists and curators from Woodend Museum, Scarborough, using local heritage and history to base their art projects. This includes looking at and revisiting pieces of artwork relating to building sketches and building, as well as investigating artwork created by local artists in Museum's gallery (cultural capital).

Students also improve their mastery alongside studies of famous artists and their style of painting. For example, in their topic 'Lights, Camera, Action', students create a self-portrait and then colour each 'quarter' of this in the following paint styles: Fauvism, Impressionism, Pointillism & Pop Art, whilst learning about the famous artist associated with these styles, such as: Seurat, Warhol, Monet and Matisse.

Brompton and Sawdon CP Whole School Art and Design Curriculum

	<p>Children also study more abstract styles, such as the paintings of Peter Thorpe as part of their 'Space' topic.</p> <p>Students learn about architects/designers as part of topics such as 'Greeks', which focuses on the developments of Archimedes, using the recreated Screw at Eureka Museum as an impetus. They also study the use of columns in Greek buildings as part of Design and Technology.</p> <p>Local designer, George Cayley, is also taught alongside the topic 'Brompton & Beyond', emphasising the achievements he made, especially in aviation design.</p>
<p><u>Year 6 students at Greater Depth will (key stage 3):</u></p> <ul style="list-style-type: none"> • use a range of techniques and media, including painting • increase their proficiency in the handling of different materials • analyse and evaluate their own work, and that of others, in order strengthen the visual impact or applications of their work 	<p>When the above is secure and refined, students begin to develop and combine different techniques and materials. For example, students, as part of their 'Lights, Camera, Action' topic, create Greek theatre masks using a combination of materials that are functional and aesthetic, such as gummed paper.</p> <p>Students provide peer feedback during their extended artist study (as above) and also debate between the merits of different styles of painting as a class (praised during Ofsted, 2014).</p>
<p><u>IMPACT:</u></p>	<p><u>FUTURE FOCI (to inform action plan or SIP):</u></p>
